## **Deep vectorization PR**

Link to pull request with diff: <https://github.com/adasegroup/Deep-vectorization-PR/pull/2> (Links to an external site.)

I tried to run following code:[https://github.com/nikitabalabin/Deep-vectorization-PR/blob/master/notebooks/pretrain\\_model\\_loading\\_and\\_evaluation\\_for\\_curves.ipynb](https://github.com/nikitabalabin/Deep-vectorization-PR/blob/master/notebooks/pretrain_model_loading_and_evaluation_for_curves.ipynb)  
Everything is working.

From my point of view the completeness is 70-85%
